

The following is a copy of my inquiries and there responses I have edited out my name and any locations and tracking numbers

Hello, Thank you for bringing this to our attention. I understand how frustrating it is being charged without your authorization. After taking a look at the order, it appears that it is being sent to the same shipping address you've used in your previous Wish orders. Can you review the order in question and confirm if the address belongs to or is familiar to you? If so, could it be possible that this order was placed by accident? If you don't recognize the address in this order, please let us know so that we can investigate this further. We look forward to your reply.

I do not know what other orders you are referring to I have never bought or have ever had anything shipped to the that state from wish or any other web site. The money was stolen from my checking account through wish.com

Please expedite The return of my funds. I have contacted FedEx the package has been flagged has fraud and is being returned to the shipper. I have also contacted the sheriff department and they are looking into it. Has this was a debit card not a credit card it would be greatly appreciated if you could expedite the return of my funds

Hello, Thank you for getting back to us. I understand that this is an accidental order and for this caused inconvenience. As this address was used on your previous Wish orders, you must first wait for the item to arrive so that you can start the return or refund process. The order is estimated to arrive by Nov 21, 2020. If you don't receive it after that date, please contact us again and we'll be happy to assist you. Let us know if you have any other questions. Yammer Fahad Wish Customer Support

At this point I could not respond through the same feed I had to start another complaint.

Amazing level of deniability, again I will ask the question has to what orders I have placed through wish.com that this order was shipped to. I will save you the trouble, the answer is none. So why do you keep saying in your responses I have shipped to this address before. Again I will ask for you to refund my money which was stolen from me through your web site. the item is being shipped back to where it came from. via FedEx tracking #..... this should be enough info for you to process a return of my funds.
