DEAR CLIENT,

You are requested to pay a 100% refundable fee of \$1000 for the City Permit for your puppy. This is a very important document that will authorize the entry of your puppy in your city/state and these documents will also prove that the transaction and entry for your puppy into your city/state is also 100% legal. Without these documents , your puppy will not be granted entry into your city/state and she will be quarantined and if she is quarantine , charges will be placed on you which will take you to court and in some cases to jail .

Note that all cities in USA have their own laws and regulations but the City Permit fee is a based law in all cities . A pet cannot leave a city to another city or be relocated without a valid City Permit document .

You are very lucky that your puppy has a pet insurance which covers you, meaning the \$980.00 you will pay now is a 100% refundable upon the delivery of your puppy today plus the first fees that you paid .

Note: This is the last stage meaning that this is the last and final payment because after this payment , your puppy will be granted immediately entry into your city/state .So you need to pay now for their City Permit so that they can be granted entry in your city/state. Remember this fee is a 100% refundable due to the insurance policy so you will have all the money you paid .

Also once we confirm everything your puppy will be sent to you ,

We want to give you the delivery directives so take note .

- When our delivery agents arrives , show them any identification document it can be your ID or Driver's License etc . Showing them some identification will prove that you are the rightful owner of the puppy .
- When that is done , the delivery and insurance papers will be presented to you . You just have to simply sign them .

- When all papers are signed , your puppy will be handed over to you , and all your money will be handed and refunded back to you cash in a sealed envelop .
- When the envelop is handed to you containing your money , do open the envelop , make sure you count your money carefully and confirm to our pet delivery agents the money is okay before they leave .
- When that is done , a receipt will be handed to you .
